Energy/Sports Formula™

DESCRIPTION
Energy/Sports Formula™, provided by Douglas Laboratories, is a synergistic and comprehensive combination of vitamins, minerals, enzymes, herbals, and other nutrients, carefully formulated and specifically designed to support energy metabolism during sport and exercise.

FUNCTIONS
Studies show that a high percentage of adults in North America and other developed countries eat less than the minimum daily allowance of 10 or more essential nutrients. Adequate amounts and proper balance of these nutrients are needed not only for maintaining good health, but also for the dietary management of the body’s structure as well as the optimum functioning of its various systems, including energetics. Energy/Sports Formula™ has been carefully developed to contain the right proportions of vitamins, minerals, trace elements, and other nutrients without danger of toxic build-up or of side effects. Each ingredient is selected in consideration of its absorbability, competitive relationship with other nutrients, allergenic potential, and long-term safety. Certain nutrients such as beta-carotene, vitamin C, vitamin E and B-complex vitamins are included in high-potency amounts because of the vital roles they play in energy production, antioxidant protection and maintenance of healthy blood cells, nervous system, hormonal balance, and more. Minerals and trace elements are provided in their safest and most bioavailable forms. Energy/Sports Formula™ contains not only the base formula of Douglas Laboratories’ Ultra-Specific Nutrition 2000 Series™ that offers intensive support for the healthy functioning of the body in general, but also a blend of herbs and additional nutrients specifically formulated to offer additional fortification of the body’s defenses against oxidative assaults to the structure and function of our body’s metabolic processes including energetics. Scientific research has shown that exercise-induced oxidative damage to the structure and function of the body’s tissues can be attenuated by the various nutrients included in Energy/Sports Formula™ such as vitamin E, vitamin C, N-acetyl-cysteine, and gamma oryzanol. Ginseng may help sustain muscle function during some sport activities. Additionally, citrus bioflavonoids, vitamin E, vitamin C, zinc, and selenium provide potent antioxidant protection to maintain the healthy structure and function of blood vessels supplying oxygen and nutrients to exercising muscles.

INDICATIONS
Energy/Sports Formula™ may be a useful dietary supplement for those who wish to maintain the healthy functioning of their bodies while undergoing the stresses of physical exercise.

FORMULA (#4543)
Four Tablets Contain:

- Vitamin A .................................................................20,000 IU
  (25% as Vitamin A Palmitate/75% [15,000 IU as Beta-Carotene])
- Vitamin C (Ascorbic Acid) ......................................1,000 mg
- Vitamin D-3 ..............................................................50 IU
- Vitamin E (as d-alpha tocopheryl acetate) ..................200 IU
- Thiamine (as Thiamine HCl) .....................................50 mg
- Riboflavin ..............................................................25 mg
- Niacin/Niacinamide ...............................................120 mg
- Vitamin B-6 ............................................................25 mg
  (as Pyridoxine HCl/Pyridoxal-5-Phosphate Complex)
- Folic Acid ..............................................................800 mcg
- Vitamin B-12 .........................................................100 mcg
- Biotin ..................................................................300 mcg
- Pantothenic Acid .................................................150 mg
### Energy/Sports Formula™

(as d-Calcium Pantothenate)
- **Calcium**: 300 mg (from Calcium Citrate/Ascorbate/Carbonate Complex)
- **Magnesium**: 300 mg (from Magnesium Aspartate/Ascorbate/Oxide Complex)
- **Zinc (from Zinc Aspartate/Krebs/Oxide Complex)**: 20 mg
- **Selenium**: 200 mcg (Organic Selenium from Krebs† Cycle and Kelp)
- **Copper**: 2 mg (from Krebs cycle)
- **Manganese**: 15 mg (from Manganese Aspartate/Sulfate Complex)
- **Chromium**: 200 mcg (Organically bound with GTF activity–low allergenicity)
- **Molybdenum**: 50 mcg (from Molybdenum Krebs†)
- **Potassium**: 75 mg (from Potassium Aspartate/Chloride Complex)
- **Choline (from Choline Citrate/Bitartrate)**: 20 mg
- **Inositol**: 25 mg
- **Citrus Bioflavonoid Complex**: 100 mg
- **PABA (para-Aminobenzoic Acid)**: 50 mg
- **Vanadium (from Vanadium Krebs†)**: 25 mcg
- **Boron**: 1 mg (from Boron Aspartate/Citrate Complex)
- **Trace Elements**: 100 mcg (from Sea Vegetation)
- **Energy/Sports Proprietary Blend**: 500 mg
  - Ginseng (root) (Panax ginseng), Sarsaparilla (root) (Smilax officinalis), L-Aspartic Acid, Octacosanol, Betaine HCl, Royal Jelly, Gamma Oryzanol (Rice Bran Oil), n-dimethylglycine (DMG), L-Carnitine, Inosine, N-Acetyl-L-Cysteine, L-Methionine and Glutamic Acid

### Suggested Use
Adults take 4 Tablets daily with meals or as directed by a healthcare professional.

### Side Effects
No adverse side effects have been reported.

### Storage
Store in a cool, dry place, away from direct light. Keep out of reach of children.
