

Ultra Genic™

DESCRIPTION

Ultra Genic™ tablets, provided by Douglas Laboratories, supplies essential vitamins, minerals and other nutrients needed for good health.

FUNCTIONS

Studies show that a high percentage of adults and children in North America and other developed countries eat less than the minimum daily allowance of 10 or more essential nutrients. Adequate amounts and proper balance of these nutrients are needed not only for maintaining good health, but also for the dietary management and prevention of chronic diseases. Vitamin A, vitamin C, vitamin E and B-complex vitamins are included in high-potency amounts because of the vital roles they play in antioxidant protection, energy production and maintenance of healthy blood cells, nervous system, hormonal balance, and more. Minerals and trace elements are provided in their safest and most bioavailable forms, such as chelates and other scientifically validated and clinically superior forms. Iodine is not included in this formula for those individuals wishing to avoid iodine supplementation.

INDICATIONS

Ultra Genic may be a useful supplement for individuals who wish to consume the essential nutrients for health.

FORMULA (#7511)

2 tablets Contain:

Vitamin A (as Vitamin A Palmitate)	10,000 I.U.
