

Caprylate Plus

Buffered Caprylic Acid Formula

DESCRIPTION

Caprylate Plus is a well-tolerated, natural dietary supplement of controlled-release caprylic acid (octanoic acid) complex, Pau D'Arco herb, and other unique ingredients. Each tablet contains a sodium caprylate complex, equivalent to 70 mg caprylic acid. Potassium-buffered sorbic acid is added as a natural stabilizer.

FUNCTIONS

The microbiota of the human gastrointestinal tract plays a key role in nutrition and health. Caprylic acid, commonly found in foods (coconut oil, milk fat, etc.), is a natural dietary fatty acid which supports a healthy intestinal microflora. † In vitro studies have demonstrated that caprylic acid may help to maintain a balanced level of microorganisms.† At the same time, caprylic acid does not adversely affect the growth of beneficial intestinal bacteria.

This caprylate complex is well tolerated and provides for controlled release of caprylic acid throughout the small and large intestine. As unique herbal ingredients, pure Pau D'Arco (Taheebo) is added in a base of horseradish and clove concentrates. Pau D'Arco is a botanical with active constituents that have been shown to support a healthy gastrointestinal tract.†

INDICATIONS

Caprylate Plus tablets may be a useful dietary supplement for those who wish to support a normal microecology of the intestinal microflora. Caprylate Plus is especially appropriate for individuals who may not tolerate higher levels of caprylic acid.

FORMULA (#CND)

Each tablet contains:

Caprylic acid (as sodium caprylate)	70 mg
Potassium sorbate.....	50 mg
Pau D'Arco (Taheebo).....	50 mg

Other ingredients: Cellulose, stearic acid, silica, horseradish powder, magnesium stearate, pharmaceutical glaze and clove extract oil.

SUGGESTED USE

Adults take one to three tablets daily on an empty stomach at least one hour before meals, or as directed by a healthcare professional.

SIDE EFFECTS

No adverse effects have been reported.

STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.
