ULTRA PREVENTIVE® SUITE OF MULTIVITAMINS

 **DOUGLAS**  
LABORATORIES®

# TRUST. IN NUTRITIONAL HEALTH.

## DOUGLAS LABORATORIES NAMED NUTRISearch GOLD MEDAL OF ACHIEVEMENT™ RECIPIENT

Five-star Rating Recognizes Superior Product Content and Manufacturing Practice for Ultra Preventive® X

- The NutriSearch Comparative Guide to Nutritional Supplements™ completed its review of the vitamin and mineral marketplace and awarded the NutriSearch GOLD Medal of Achievement to less than one percent of more than 1,600 North American supplements reviewed. Each product is assessed on 18 important health support criteria against a blended standard, which is created from the published recommendations for daily nutrient intake of 12 recognized nutritional authorities.
- Douglas Laboratories qualified for this top award for product content, demonstrating superior Good Manufacturing Practices (GMP) with NSF® International, ISO certification and accreditation, and documenting a successful, independent laboratory analysis of product label claims.

### FEATURES

- Douglas Laboratories multivitamins have been carefully developed to contain the right proportions of vitamins, minerals, and trace elements without danger of toxic build-up and without side effects. Each ingredient is selected in consideration of its absorbability, competitive relationship with other nutrients, allergenic potential, and long-term safety.
- Metafolin® (5-MTHF) folate and additional Vitamin D3 have been added to many of Douglas Laboratories® Ultra Preventive® supplements.

## MULTIVITAMINS

Studies show that a high percentage of adults in North America and other developed areas eat less than the minimum daily allowance of 10 or more essential nutrients. Adequate amounts and proper balance of these nutrients are needed not only for maintaining good health, but also for the dietary management of the body's structure and functioning of its various systems.

# TRUST. IN NUTRITIONAL HEALTH.

---

## COMPARE BRANDS

### Compare Douglas Laboratories to a Leading National Brand

Aren't all supplements more or less the same?

No. Douglas Laboratories dietary supplements are “professional grade”. They offer you superior nutrition, compared to the most popular brands you may find in stores.

A great example is Ultra Preventive® X, our potent multivitamin formulated according to the latest science to support overall good health. It contains powerful antioxidants with beta-carotene, natural vitamin E, a high-potency complex of B vitamins, calcium, magnesium, and a full spectrum of trace elements, along with a comprehensive green food blend with select extracts and powders from over 25 fruits, vegetables and herbs.

Unlike one of America's top-selling retail brands, Ultra Preventive® X also contains high concentrations of essential vitamins, minerals and other nutrients in safe, optimal amounts.

- Contains a blend of organic fruits and vegetables: one serving provides the ORAC (antioxidant value equivalent to 4-5 fruits and vegetables)
- Contains folate from Metafolin®, a superior form of folic acid that is readily absorbed by the body
- 1000 IU of Vitamin D3 per serving
- Continues to hold the 5-star gold-standard rating in the Nutriscience Comparative Guide to Nutritional Supplements

## Ultra Preventive® X

Formula# 200569

120 Tablets / 240 Tablets

Essential nutrition for optimal health. Our most comprehensive multivitamin and mineral supplement in a special green food base includes a variety of organic fruits and vegetables. This unique formula provides extra vitamin D and the body's preferred form of readily bioavailable folate, Metafolin®, adding to the other carefully formulated vitamins, minerals, trace elements and nutrients found in this product. We are proud to announce the availability of Metafolin®, the body's preferred form of folate. Metafolin®, also known as (6S)-5-methyltetrahydrofolic acid ((6S)5-MTHF), is the naturally occurring, predominant form of folate, and is directly usable by the body. Metafolin® is patented, contains only the S isomer of 5-MTHF, and has been shown to be the only form of folate to be able to cross the blood-brain barrier.

**Ultra Preventive® X  
named NutriSearch GOLD Medal  
of Achievement™ recipient by  
NutriSearch Comparative Guide to  
Nutritional Supplements™\***

\* (By the independent NutriSearch Comparative Guide to Nutritional Supplements™. Over 500 nutritional products from hundreds of manufacturers tested.)
