

IMMUNE HEALTH SUPPORT PROTOCOL

A SUGGESTED NUTRITIONAL PROTOCOL FOR SUPPORT OF THE IMMUNE SYSTEM†

A.H.C.C.® Plus:

A.H.C.C.® (active hexose correlated compound) is a unique mushroom-derived extract designed to provide support to the entire immune system and may play an important role in supporting the body's natural defense mechanisms.†

Product Code: 99275 **Suggested Usage:** Two to six vegetarian capsules daily

Vita-Kids™ Immune:

Provides a synergistic combination of herbs, vitamins and minerals designed to support immune health in a great-tasting, natural, grape-flavored liquid.†

Product Code: 99893 **Suggested Usage:** One teaspoon daily

ColostOferrin™:

This unique formula combines colostrum with other immune-supporting compounds including lactoferrin, arabinogalactan, vitamin C and beneficial probiotics.

Product Code: 98230 **Suggested Usage:** Two capsules daily

Mycoceutics®:

This blend of 10 medicinal mushrooms is a rich source of beta-1, 3-glucans, polysaccharides that have shown to be potent immune-stimulating compounds.†

Product Code: MYCO **Suggested Usage:** Two capsules, twice daily

Zinc Lozenges (10 mg):

A pleasant tasting zinc lozenge designed to be taken at the onset of symptoms.

Product Code: ZNL **Suggested Usage:** One lozenge every two hours as needed (not to exceed 10 per day)
