

VEIN AND CIRCULATION SUPPORT PROTOCOL

A SUGGESTED NUTRITIONAL PROTOCOL FOR VENOUS SUPPORT†

Nattosyn™:

A synergistic combination of nattokinase, hesperidin methyl chalcone, and pomegranate extract designed to provide comprehensive support for circulatory health.†

Product Code: 99250 **Suggested Usage:** Two vegetarian capsules daily with meals

Ultra Preventive® X:

A comprehensive multivitamin in a fruit and vegetable base. Supplies substantial amounts of lutein, lycopene, and zeaxanthin. Designed to provide antioxidants and vitamins for general health support.

Product Code: 45410 **Suggested Usage:** Four to eight tablets taken through the course of the day with meals

Tri-En-All 400:

Contains natural-source mixed tocopherols with a minimum guaranteed amount of the d-beta, d-gamma and d-delta tocopherols, as well as additional mixed tocotrienols. Studies have shown that these natural isomers have synergistic effects in conjunction with the more commonly used d-alpha-tocopherol.

Product Code: 98738 **Suggested Usage:** One softgel daily

Ester-C Plus:

Antioxidants, especially vitamin C are important for normal blood vessel function and blood flow.†

Product Code: 7847 **Suggested Usage:** Two capsules, twice daily

Varitonin™:

Varitonin contains a blend of vitamin C, hesperidin methyl chalcone, and standardized extracts of horse chestnut, butcher's broom, and gotu kola, especially useful to enhance overall vascular tone, fluid balance and circulation to the legs.†

Product Code: VRT **Suggested Usage:** One to two vegetarian capsules daily

Billberry Max-V:

Billberry contains important flavonoids that contribute to the health and integrity of the venous system.†

Product Code: 77306 **Suggested Usage:** One vegetarian capsule daily
