

Liquid Vitamin D-3

DESCRIPTION

Liquid Vitamin D-3, provided by Douglas Laboratories®, is a unique, neutral tasting, sugar free liquid supplying 10,000 I.U. of natural Vitamin D₃.

FUNCTIONS

Vitamin D, also known as the “sunshine vitamin” is an essential vitamin that plays many important roles in the proper functioning of the body. Though classified as a vitamin, Vitamin D is actually a key regulatory hormone for calcium and bone metabolism. Adequate vitamin D status is essential for ensuring normal calcium absorption and maintenance of healthy calcium plasma levels. Numerous scientists now feel that supplementation with vitamin D at levels greater than previously thought necessary is critical to helping maintain healthy bone remodeling as we age.

INDICATIONS

Vitamin D 10,000 IU may be a useful dietary supplement for those individuals wishing to support bone health or whose requirements for vitamin D cannot be met by lower potency products.

FORMULA (#200039)

1 dropper (1 ml.) contains:

Vitamin D₃ 10,000 IU

Other Ingredients: Medium Chain Triglycerides

SUGGESTED USE

Adults take 1 dropper (1 ml) daily with meals or as directed by health care professional.

SIDE EFFECTS

No adverse side effects have been reported.

STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.
