

# MCT/Butyrate Liquid with SunButyrate<sup>™</sup>

A DOUGLAS LABORATORIES® EXCLUSIVE\*

### Fuel for brain and body

A great-tasting liquid that provides a novel combination of patent-pending **SunButyrate<sup>™</sup>** and highly concentrated **C8 MCT oil** clinically shown to support:

### **PRODUCT FEATURES**

- Contains butyric acid from SunButyrate<sup>™</sup>, which complements MCT in driving ketone production<sup>‡</sup>
- May promote **healthy weight management**<sup>+</sup> in conjunction with reduced-calorie intake
- Offers a great-tasting formula and features:
  - Natural lemon-vanilla flavor
  - Light consistency derived from sunflower oil
  - Highly palatable, versatile liquid that can be taken directly or mixed easily into food or hot/cold beverages.
- Gluten-free & non-GMO

## **PRODUCT DETAILS**

#### SUPPLEMENT FACTS (PL)

Serving Size: 1 Tablespoon Suggested Usage: 1-3 times daily

Amount Per Serving	
Calories	
Total Fat	14 g
Saturated Fat	
Medium-Chain Triglycerides	8.6 g
Providing 8 g caprylic acid (C8)	-
SunButyrate™ Butyrate Triglyceride Providing 965 mg butyric acid	5 g

Other ingredients: Natural vanilla flavor, lemon oil, mixed tocopherols (from sunflower) and rosemary extract

Denotes professional label-eligible formula

Take 1 tablespoon, 1-3 times daily with meals. SunButyrate™ is a trademark used under license.

**FORMULA** 57689

SIZE 460 ml

\*SunButyrate<sup>™</sup> exclusively available to Atrium Innovations

\*Provides weight management support as part of a healthy lifestyle with a reduced-calorie diet and regular exercise.

<sup>†</sup>These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure, or prevent any disease.

### **CLINICAL EVIDENCE**

Preliminary data suggest that MCT with butyrate may raise plasma ketone levels more effectively than MCT alone.<sup>‡</sup>

In a human intervention study involving 20 elderly subjects and young controls:1

• Administration of **30 grams of MCT** to increase ketone concentration resulted in a 3% increase in overall brain energy metabolism without altering brain glucose consumption.‡

Clinical trials indicate that butyrate supplementation supports intestinal function and promotes healthy cytokine balance in the GI tract.2.3‡

### ENHANCED BIOAVAILABILITY

MCT/Butyrate Liquid with SunButyrate<sup>™</sup> is **designed to protect** butyrate from degradation in the stomach and upper GI tract.

GI models and in-vitro tests reveal only 6-8% breakdown of SunButyrate<sup>™</sup> in the stomach compared to 70% breakdown of other butyrate forms, while also maintaining 90% integrity in the intestine.
