

## G.F.S.-2000 Capsules®

Green food supplement

### DESCRIPTION

G.F.S.-2000 Capsules® is a powerful phytonutrient green food supplement providing a concentrated blend of premium grasses, algae, vegetable powders, botanical extracts for liver support, and antioxidants, as well as pre- and probiotics for gastrointestinal and immune health.†

### FUNCTIONS

G.F.S.-2000 Capsules® provides a wide variety of vitamins, minerals, enzymes, antioxidants, essential amino acids and other important phytonutrients. Young grasses and several varieties of microalgae supply chlorophyll, carotenes, B-vitamins and trace elements. Cruciferous vegetables broccoli and cauliflower offer sulfurophane compounds known for their ability to induce phase 2 detoxifying enzymes.† Probiotic cultures provide friendly bacteria for the gastrointestinal tract and are nourished by fructooligosaccharides that selectively feed beneficial colonies of microflora. Flavonoid-rich plant extracts, lecithin and other nutrient-dense foods offer a variety of additional benefits, including antioxidant activity.†

### INDICATIONS

G.F.S.-2000 Capsules® may be a useful dietary supplement for those who wish to supplement their diet with this concentrated phytonutrient blend of grasses, vegetables, botanicals, and probiotics for general health.
