Chlorella Plus

DESCRIPTION
Chlorella Plus by Douglas Laboratories, supplies chlorella and spirulina algae as phytonutrients for antioxidant support.

FUNCTIONS
Chlorella and Spirulina are microalgae from green algae plants that contain substantial amounts of fatty acids (particularly polyunsaturated fatty acids), protein, chlorophyll, carotenoids, vitamins, including vitamin B12 and vitamin K, minerals, and unique pigments. Research shows daily dietary supplementation with chlorella supports normal blood pressure, serum cholesterol levels, wound healing, and immune functions†. Microalgae may play a role in detoxification. One study showed microalgae supplemented in an enteral diet had significant protective effects on the intestinal mucosal barrier. Another clinical study suggests that fat metabolism and insulin signaling pathways could be physiologically supported by chlorella intake. Spirulina has antioxidant properties that can support healthy lipid metabolism and cardiovascular health†.

FORMULA (#80249)
Serving Size 1 capsule:
Chlorella (broken-cell wall) …………………………………………………………………………………250 mg
Spirulina ………………………………………………………………………………………………………250 mg

SUGGESTED USE
Adults take 1 capsule 3 times daily or as directed by physician.

SIDE EFFECTS
No adverse side effects have been reported.

STORAGE
Store in a cool, dry place, away from direct light. Keep out of reach of children.
