

Hemp Max with VESIsorb®

A broad-spectrum hemp extract with enhanced bioavailability.

Hemp Max with VESIsorb® provides 25 mg cannabidiol (CBD) per softgel with a patented delivery system for enhanced absorption.

THC free
(<0.001)

Colloidal delivery
systems for enhanced
bioavailability

Solvent-free,
clean CO₂ extraction

SPECIAL FEATURES

- Provides **broad-spectrum support** from 10+ phytocannabinoids, including CBD, 10-12mg beta-caryophyllene (BCP), and other terpenes
- Features a **patented VESIsorb® lipid-based delivery system**, which increases the bioavailability of a bioactive that is fat-soluble or has poor water solubility to enhance absorption and increase plasma levels
- Gluten-free and non-GMO
- Offers CBD, beta-caryophyllenes and other terpenes at a **great price per mg**

PRODUCT DETAILS

AS A DIETARY SUPPLEMENT, ADULTS TAKE 1 SOFTGEL DAILY OR AS DIRECTED BY YOUR HEALTH PROFESSIONAL.

Serving Size 1 Softgel • Servings Per Container 30

Amount Per Serving	
VESIsorb® Hemp Oil Extract (<i>Cannabis sativa</i> , seed, stalk, stem) Providing 35 mg of phytocannabinoids and terpenes, including beta-caryophyllene	334 mg

Other ingredients: Medium chain triglycerides, vitamin E (tocophersolan), mono- and diglycerides, fatty acids, natural flavor, capsule shell (bovine gelatin, glycerin, carob and water)

Hemp Max contains CO₂ extracted, U.S. sourced agricultural hemp
VESIsorb® is a registered trademark of SourceOne Global Partners.

FORMULA	SIZE
202523	30 Softgels

PL Denotes private label-eligible formula

Hemp Max with VESIsorb®

RESEARCH

RESULTS OF A HUMAN PHARMACOKINETIC STUDY

Compared to a standard MCT oil formulation, a single 25 mg dose of CBD in the VESIsorb® delivery system:

- Significantly enhances bioavailability
- Absorbs into the bloodstream 3X faster
- Increases peak plasma level 4X

Knaub et al., *Molecules* 2019;24, 2967.

In a recent randomized, double-blind crossover trial, a single oral dose of 25 mg CBD in the VESIsorb® system led to a 4.4-fold higher peak plasma concentration (Cmax) and a 2.85-fold higher area under the curve (AUC0-8h) compared to a standard CBD formulation. Faster absorption was also demonstrated, with peak plasma levels achieved one hour after ingestion of the CBD + VESIsorb® compared to three hours for the reference formulation.

THC-free – each batch is tested to ensure nondetectable levels (<0.001%) even less than allowable limits

UNWAVERING MANUFACTURING STANDARDS

- 100% US-sourced, field-grown agricultural hemp
- Extracted using solvent-free, clean CO₂ technology, an environmentally friendly and efficient method
- THC-free – each batch is tested to ensure nondetectable levels (<0.001%) even less than allowable limits
- Every batch is extensively third-party tested for potency and purity, including solvents
