

Tri-Metabolic Control™ With LOWAT®

LOWAT® is a patent-pending fat-tissue targeting ingredient for weight management support. LOWAT® works by reducing fat formation and accumulation and increasing fat burning.^{††}

OUTCOMES

- In a randomized, double-blind, placebo-controlled, clinical trial of 50 subjects, those receiving LOWAT® lost significantly more weight (mean \pm SEM, 9.4 \pm 0.88 lb) than participants receiving a placebo (3.94 \pm 0.77 lb) ($p < .00005$).^{††}
- LOWAT® was shown to boost adiponectin by 15% and reduce ghrelin by 17% to support healthy weight management and regulate appetite.^{††}
