

Bioflavonoid Complex

DESCRIPTION

Bioflavonoid Complex is a dietary supplement providing antioxidant bioflavonoids derived from natural sources. Each tablet supplies a combination of citrus bioflavonoids rich in quercetin and its glycoside, rutin.‡

INDICATIONS

- Support for circulatory health‡
- Antioxidant support‡

FUNCTIONS AND MECHANISM OF ACTION

Bioflavonoids are polyphenol compounds derived from plant extracts that provide beneficial health effects due to their antioxidative properties. Citrus bioflavonoids include rutin and quercetin, and have been shown to support healthy arterial function by assisting in the maintenance of vasculature activity and normal blood flow. In a clinical study, citrus bioflavonoids were shown to support vascular function by potentially influencing nitric oxide. Quercetin has been shown to be one of the most bioactive flavonoids. Quercetin promotes cardiovascular health by protecting lipids from oxidation and supporting the health of capillaries by enhancing their strength and integrity. Both quercetin and rutin promote the protection of red blood cells and play roles in quenching free radicals, potentially via iron- and copper-chelating activities.‡

FORMULA (#202586)

Serving Size 2 Tablets:

Bioflavonoid Complex 500 mg
 (containing lemon bioflavonoids, quercetin, and rutin)

Other ingredients: Microcrystalline cellulose, hydroxypropyl cellulose, silica, vegetable stearate, croscarmellose sodium and coating (Hypromellose, glycerin)

SUGGESTED USE

Adults take 2 tablets daily or as directed by a health professional.

WARNING

If you are pregnant, nursing, have any health condition or taking any medication, consult your health professional before using this product.

STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.
