

Vitamin D 1,000 I.U.

DESCRIPTION

Vitamin D, provided by Douglas Laboratories, contains 1,000 I.U. of natural vitamin D3 per tablet.

FUNCTIONS

Vitamin D, also known as the “sunshine vitamin” is an essential vitamin that plays many important roles in the proper functioning of the body. Though classified as a vitamin, vitamin D is actually a key regulatory hormone for calcium and bone metabolism.† Adequate vitamin D status is essential for ensuring normal calcium absorption and maintenance of healthy plasma calcium levels.† Besides bone support, vitamin D has many other roles in the body, including modulation of cell growth, neuromuscular and immune function.†

Numerous scientists now feel that supplementation with vitamin D at levels greater than previously thought necessary is critical to helping maintain healthy bone remodeling and healthy vitamin D plasma levels.†

INDICATIONS

Vitamin D may be a useful dietary supplement for those who wish to increase their daily D intake.

FORMULA (#83007)

Each Tablet Contains:

Vitamin D3 (Cholecalciferol).....1,000 IU

SUGGESTED USE

Adults take one tablet daily or as directed by physician.

SIDE EFFECTS

No adverse side effects have been reported.

STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.
