

## AHCC® Plus

A combination of *Lentinula edodes* mycelia extract and arabinogalactan

### DESCRIPTION

AHCC® Plus supplies a unique mushroom-derived extract combined with arabinogalactan from the Western Larch tree to provide a unique immune-supportive formula.‡

### FUNCTIONS

Mushrooms have always been an important part of Asian medicine and are known to contain numerous substances that help to support the immune system. AHCC® is a unique mushroom-derived extract designed to provide support to the immune system. Derived from a patented cultivation, enzymatic decomposition and freeze-drying process of several kinds of Basidiomycetes mushrooms, the active compound in AHCC® is an  $\alpha$ -1,4 linked glucose oligosaccharide with a molecular weight less than 5,000 daltons. This oligosaccharide cannot be found in typical mushroom preparations. Beta-glucans, amino acids and minerals present in AHCC® may also play important roles in its immune-supportive properties. Scientific studies using AHCC® in animals and humans suggest that it has immunomodulating activity.‡

Research indicates that AHCC® may serve a vital function in supporting the body's natural defense mechanisms. AHCC® supports the functioning of the body and improves overall well-being. Studies have also demonstrated its important roles in helping support overall immune function, including during times of oxidative stress.‡

### INDICATIONS

AHCC® Plus may be a useful dietary supplement for those wishing to support their bodies' immune function.‡

### FORMULA (#99275)

Serving Size 2 Vegetarian Capsules:

AHCC®.....	1 g
Proprietary blend of a standardized extract of cultured <i>Lentinula edodes</i> mycelia, Carnauba wax, cyclodextrin, and microcrystalline cellulose	
Arabinogalactan .....	100 mg

AHCC® is a registered trademark of Amino Up Co., Ltd., JAPAN

### SUGGESTED USE

Adults take 2 capsules daily or as directed by a healthcare professional.

### SIDE EFFECTS

No adverse side effects reported.

### STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.
