HAIR GROWTH+ | OMEGA BEAUTY

HAIR GROWTH+

PROMOTES THICKNESS &
REDUCES LOSS[†]

CO-FORMULATED BY SHELENA LALJI, M.D.[†]

Contains the unique ingredient AnaGain™ Nu, a pea shoot extract, as well as a clinically studied combination of grape seed and green tea polyphenols, zinc, and taurine to support healthy hair growth and reduce loss[†]

SUPPORTS natural hair growth cycle & reduces loss[†]

PROMOTES hair quality, thickness & volume[†]

PROTECTS hair follicles[†]

SUPPORTS
skin hydration[†]

PROMOTES
hair thickness
& density[†]

IMPROVES nail
strength & reduces
brittleness[†]

OMEGA BEAUTY

HYDRATES & NOURISHES
HAIR, NAILS & SKIN[†]

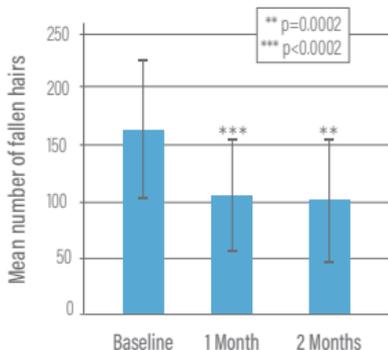

CO-FORMULATED BY SHELENA LALJI, M.D.[†]

A unique combination of essential fatty acids and a clinically studied blend of coriander seed oil, black currant seed oil, and lycopene to hydrate and nourish hair, nails, and skin[†]

Reduced Hair Loss with AnaGain™ Nu[†]

AnaGain™ Nu is a water-soluble pea sprout (*Pisum sativum*) extract rich in isoflavones and developed to support the hair growth cycle. In a pilot clinical study, within the first month, those receiving 100 mg of AnaGain™ Nu had a significant reduction in hair loss by 34% ($p < 0.002$), from 163.7 ± 61.2 at baseline to 105.7 ± 50.6 . After two months of supplementation, there was a further reduction in hairs lost by 37% (100.4 ± 56.2 , $p = 0.0002$)[†]

Grothe T, Wandrey F, Schuerch C. *Phytother Res.* 2019;1–4.

SUGGESTED USAGE: 1 DAILY

Serving Size 2 Vegetarian Capsules

Servings Per Container 30

Amount Per Serving

Zinc (as zinc gluconate)	15 mg
Green Tea Extract (98% polyphenols, 75% catechins, 45% EGCG, decaf)	375 mg
Grape Seed Extract (<i>Vitis vinifera</i> , 90% polyphenols)	150 mg
Taurine	150 mg
AnaGain™ Nu (pea shoot extract, <i>Pisum sativum</i>)	100 mg

Other ingredients: Microcrystalline cellulose, capsule (hydroxypropyl methylcellulose), ascorbyl palmitate

AnaGain™ Nu is a trademark of Mibelle Biochemistry.

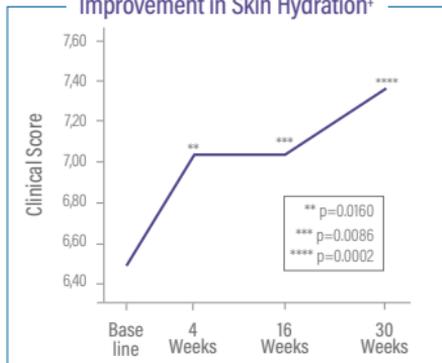

Formula

202565

Size

60 Vegetarian
Capsules

Improvement in Skin Hydration[†]

Omega Beauty ingredients* have been shown to support healthy skin by significantly improving skin hydration in as early as one month. The clinical score of skin hydration was assessed on a visual analogue scale, a measurement instrument for subjective analysis of characteristics given by a score between 1 and 10, with a higher score indicating hydrated skin. Individuals who supplemented had an increase in clinical score, which indicated an improvement in skin moisture. After four and 16 weeks of supplementation, individuals who supplemented had an increase in their average clinical score when compared to baseline, $p=0.0160$ and $p=0.0086$, respectively. The greatest effect was measured after 30 weeks of supplementation, which included the winter season occurring between weeks 16 and 30, compared to baseline, $p=0.0002$.[‡]

*Ingredients used in this study: omega-3 triglyceride concentrate, black currant oil, lycopene, vitamins C and E
 ‡Internal Data IN-04-03. Laboratoires INNEOV - Courbevoie, France. 2006.

SUGGESTED USAGE: 1 DAILY

Serving Size 2 Softgels
 Servings Per Container 30

Amount Per Serving	
Calories	15
Total Fat	1.5 g
Vitamin C (as ascorbic acid)	30 mg
Vitamin E (as d-alpha tocopherol)	5 mg
Coriander Seed Oil	600 mg
Providing:	
Petroselenic acid	360 mg
Omega-3 Triglyceride Concentrate	500 mg
Providing:	
EPA	200 mg
DHA	100 mg
Black Currant Seed Oil	500 mg
Providing:	
Gamma linolenic acid (GLA)	65 mg
Lycopene	1 mg

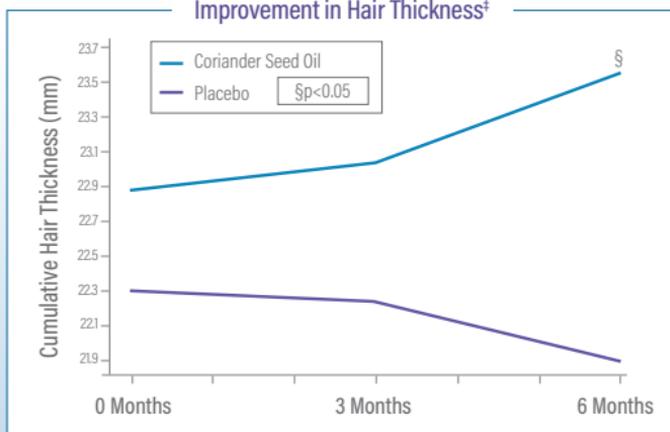

Other ingredients: Glycerin, gelatin, yellow beeswax, purified water, annatto (for color), sunflower lecithin

Contains: Fish Oil (anchovies, sardines, mackerel)

Formula	Size
202576	60 Softgels

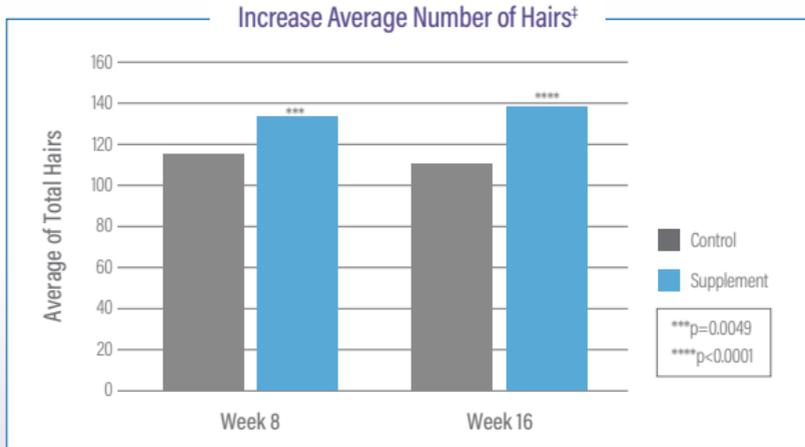

THE UNIQUE COMBINATION OF INGREDIENTS IN OMEGA BEAUTY WERE SHOWN TO **IMPROVE SKIN MOISTURE RETENTION, DECREASE ITCHINESS, AND REDUCE NAIL BRITTLINESS.**^{‡*}

Improvement in Hair Thickness[‡]

Coriander seed oil has been clinically shown to support healthy hair by significantly improving hair thickness and density. Cumulative hair thickness per area (mm/cm^2) was measured using TrichoScan[®] to quantitatively analyze magnified images of designated scalp areas. In clinical trials, individuals who supplemented with 600 mg of coriander seed oil had an increase in cumulative hair thickness after six months, compared to placebo, $p<0.05$.[‡]

HAIR GROWTH+ & OMEGA BEAUTY TOGETHER

The unique combination of ingredients from Hair Growth+ and Omega Beauty have been shown in a clinical trial to significantly increase the average number of hairs.^Δ Biological parameters of hair growth in participants were measured using TrichoScan[®] software, which quantitatively analyzed magnified images of designated scalp areas. The total number of hairs, anagen and telogen rates were calculated. Individuals who supplemented had an increase of anagen/telogen ratio which suggested the combination was able to restore a balanced hair cycle. After eight weeks, individuals in the supplementation group increased their total number of hairs, and the effect was more pronounced at 16 weeks when compared to placebo, $p=0.0049$ and $p<0.0001$, respectively.[‡]

Internal Data EC/CAP-2007-02. Institute for Experimental Dermatology, Wittel, Germany, 2008.

^ΔIngredients used in this study: grape seed extract, green tea extract, fish oil, black currant seed oil, vitamins C and E, taurine, zinc, and lycopene.
