

QUÈLL FISH OIL® | SELECTION GUIDE

Douglas Laboratories offers QUÈLL, a suite of ultra-pure supercritical CO₂ extracted omega-3 fish oils that provide a concentrated triglyceride form of EPA and DHA in a fish gelatin capsule. A growing body of scientific evidence supports the triglyceride (or re-esterified triglyceride) form of these fatty acids as exhibiting greater absorption (compared to the ethyl ester form), significantly increasing the index of EPA and DHA in the blood. Supercritical CO₂ extraction technology ensures that omega-3 fatty acids are extracted without high temperatures, oxygen or traditional chemical solvents, yielding oil that is protected from oxidation, microbiological contamination, solvent residues and isomer formation.

Supercritical CO₂ Extraction | Triglyceride form | Fish Gelatin softgel
 Ultra Concentrations | Ultra Purity

	<i>QUÈLL® EPA/DHA+D</i>	<i>QUÈLL® Ultra EPA</i>	<i>QUÈLL® Ultra DHA</i>	<i>QUÈLL® Junior</i>
Features	3:2 ratio of EPA:DHA omega fatty acids plus 1,000 IU of Vitamin D-3	5:1 ratio of EPA:DHA omega fatty acids	4:1 ratio of DHA:EPA omega fatty acids	4:1 ratio of DHA:EPA omega fatty acids
Omega-3 Dosages	EPA 600 mg DHA 400 mg	EPA 800 mg DHA 150 mg	DHA 775 mg EPA 200 mg	DHA 387 mg EPA 100 mg
Benefits†	<ul style="list-style-type: none"> • General Health • Cardiovascular Health • Immune Health 	<ul style="list-style-type: none"> • Cardiovascular Health • Joint Health 	<ul style="list-style-type: none"> • Cognitive Health • Maternity Health 	<ul style="list-style-type: none"> • Children's Health • Cognitive Development
Daily Dose Suggestion	1 oblong softgel	2 small oblong softgels	2 small oblong softgels	1 small oblong softgel to swallow
